RE: Mine Rescue Coverage for the Mammoth Mine

Dear Mr. Katona:

Southern Utah Fuel Company (SUFCo) will provide mine rescue coverage for the Mammoth Mine, MSHA Id. No. 42-01349, provided SUFCo is in receipt of the following:

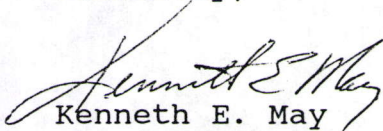

1. Updated mine escape and evacuation plan.
2. Up-to-date map of the underground workings.
3. Up-to-date map of the surface facilities.
4. Current list of available fire fighting equipment.

For the SUFCo mine rescue teams to ensure quality assistance, the above information will need to be updated at least annually or whenever major changes occur.

As time permits, we would like to have members of our mine rescue team tour the Mammoth Mine. This would allow for team members to be somewhat familiar with the workings.

If you have any questions regarding this matter, please feel free to contact Gary Jensen or myself at (801) 637-4880.

Sincerely,

Kenneth E. May
General Manager
